Collar to go over the rudder shaft

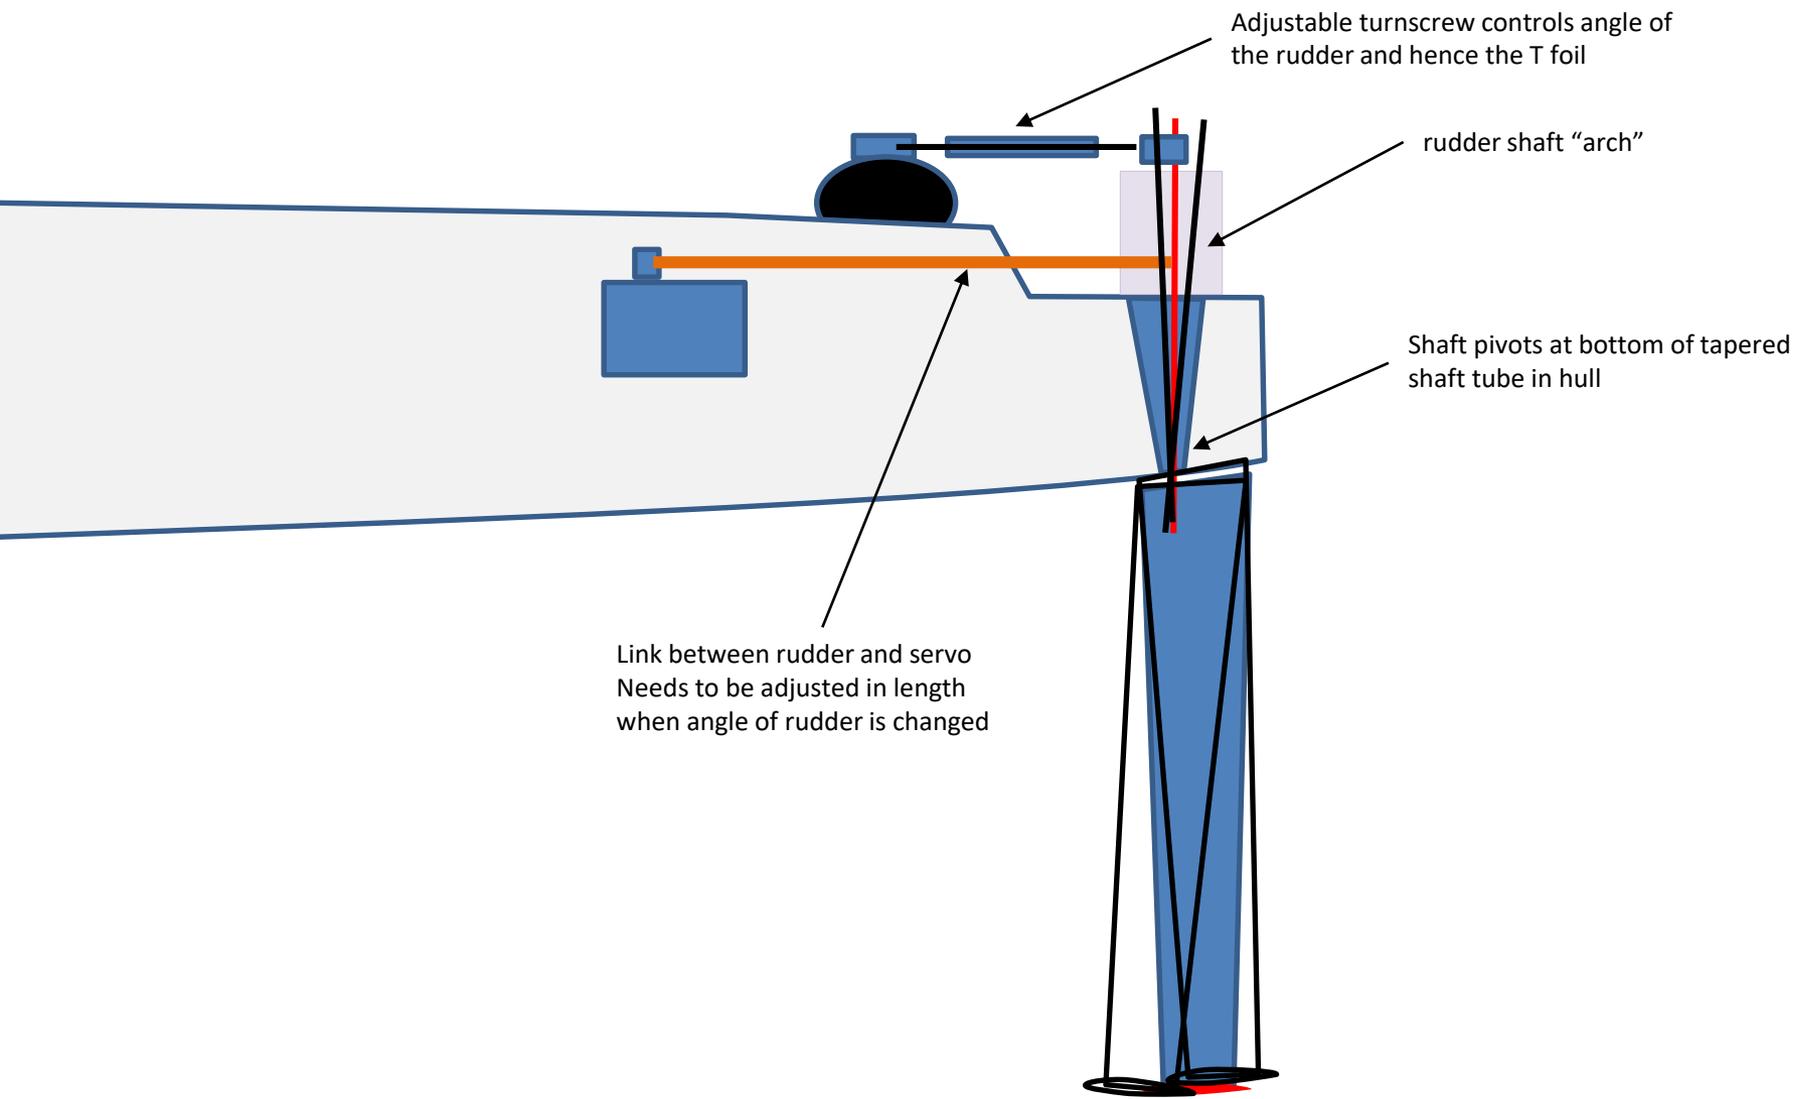

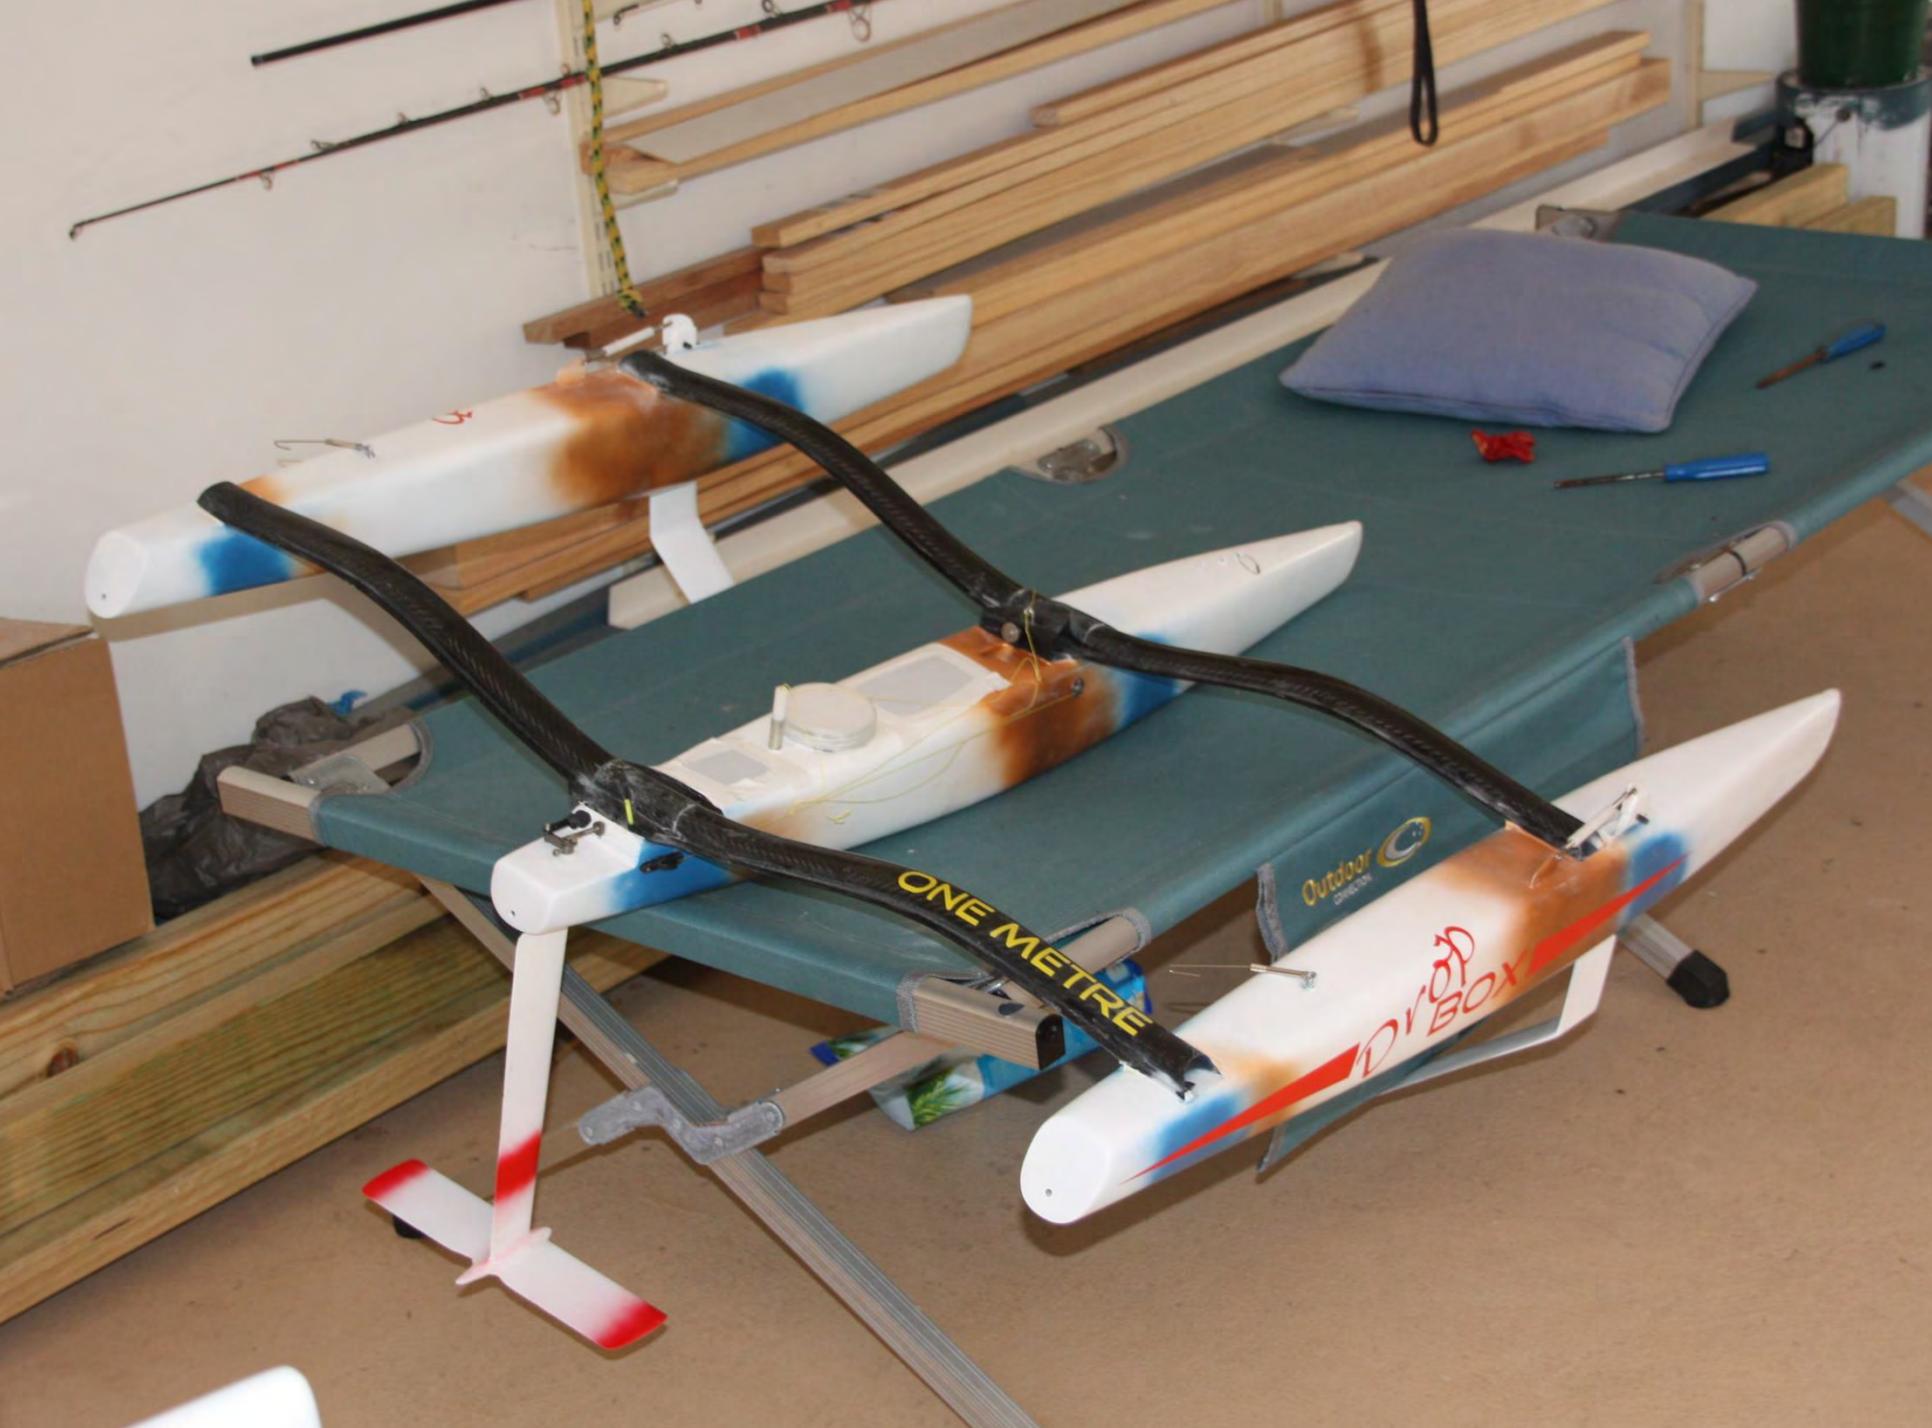

5mm

Waterline is bottom of stem and 5mm up the transom

5mm

Rudder T foil and main hull waterline to be parallel

ONE METRE

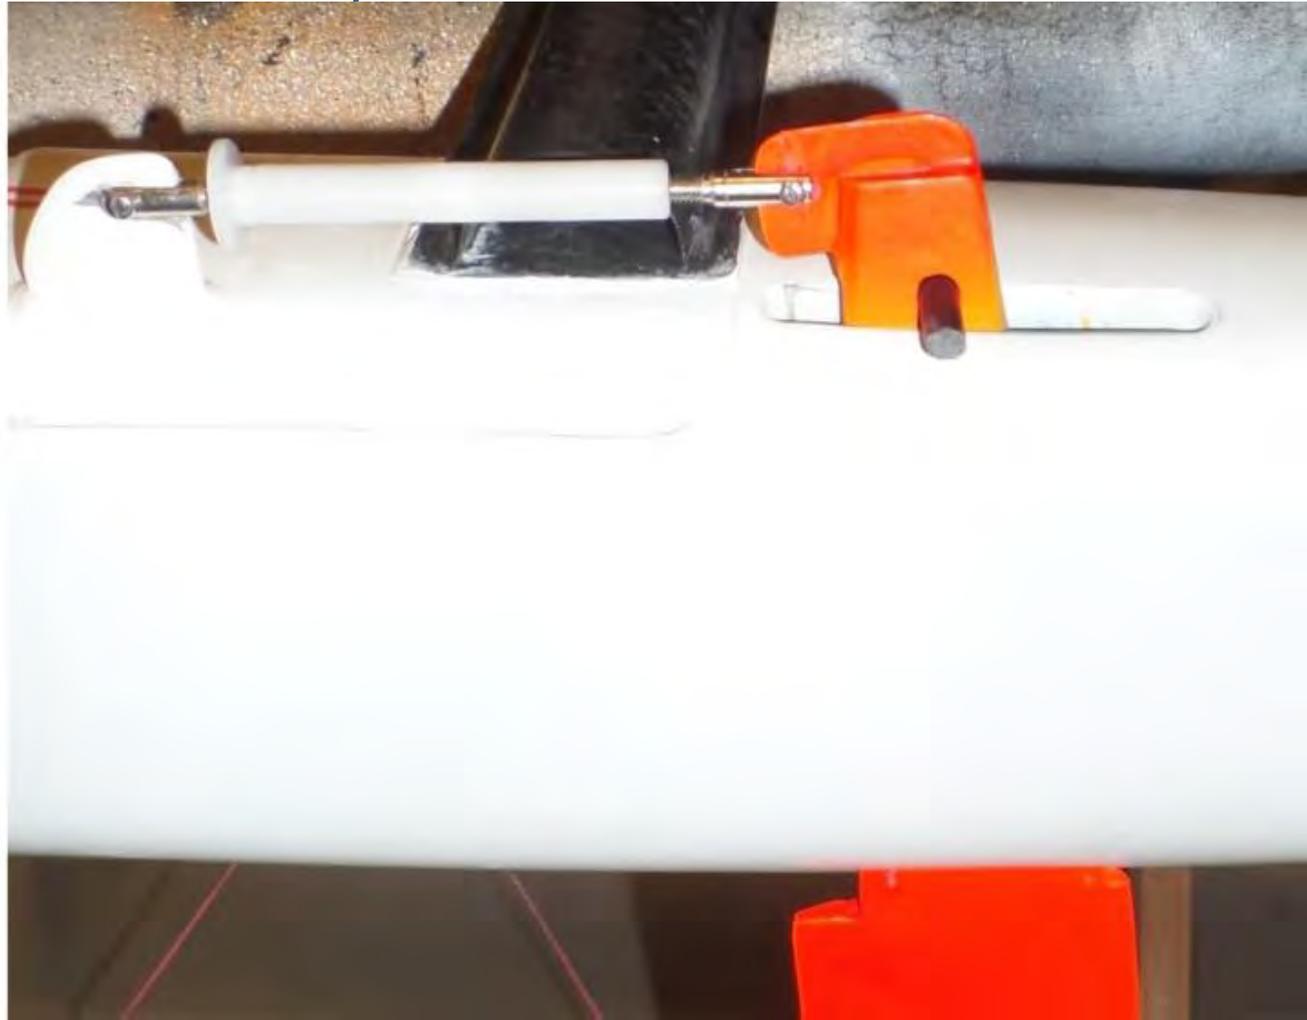

DIP BOX

Outdoor
DIRECTOR

This is the prototype of the Box. On this bat we did not fit an arch over the rudder haft. The arch simply provides additional rigidity to the rudder set up

Screw adjuster fits
between foil and
web on the saddle
